FICTIONAL TEST CV - NOT A REAL APPLICANT

Oliver Reed

oliver.reed@example.com | United Kingdom
Sales & Trading / Markets | Summer Internship

EDUCATION

University of Bristol | BSc Mathematics | September 2025 - June 2028

First-year average: 76%. Modules include Probability, Statistics and Numerical Methods.

PROJECTS

Rates Scenario Notebook | Personal Research Project | May - August 2026

Used Python to clean 260 daily observations from a supplied government-bond dataset and calculate changes in yields.

Compared 2 simple forecasting baselines with a time-ordered train/test split, avoiding random sampling of future observations.

Reported that one model underperformed the unchanged-yield baseline out of sample and explained why the result was not a trading strategy.

EXPERIENCE

Northgate Supermarket | Customer Assistant | September 2024 - present

Resolve customer queries and check price discrepancies with the duty manager.

During a stock-system outage, recorded outstanding queries in a shared log so the next shift could follow up.

ACTIVITIES

Mathematics Society | Peer Tutor | October 2025 - present

Led 8 revision sessions for a group of 6 first-year students, preparing probability exercises and checking their solutions.

University Tennis Club | Member | 2025 - present

SKILLS

Python: pandas, NumPy and matplotlib; Excel; probability and basic time-series analysis.

Interests: central-bank announcements, tennis and puzzles.
