FICTIONAL TEST CV - NOT A REAL APPLICANT

Ethan Brooks

ethan.brooks@example.com | United Kingdom
Investment Banking / IBD | Summer Internship

EDUCATION

University of Bath | BEng Mechanical Engineering | September 2025 - June 2028

First-year average: 69%. Modules include Engineering Mathematics, Materials and Design.

PROJECTS

Pump Redesign Study | Team Design Project | January - May 2026

Compared 3 impeller designs using a supplied test dataset and checked the calculations against the laboratory notes.

Owned the cost-comparison spreadsheet and separated material assumptions from measured performance.

Recommended the second design because it met the case performance requirement at lower estimated material cost; the design was not manufactured.

EXPERIENCE

Cedar Manufacturing | Summer Engineering Assistant | July - August 2026

Updated maintenance records and checked 60 equipment entries for missing inspection dates.

Raised incomplete entries with the maintenance supervisor and documented the corrections they approved.

ACTIVITIES

Engineering Society | Workshop Volunteer | October 2025 - present

Helped run 4 introductory CAD workshops and answered student questions.

Completed an introductory corporate-finance online course and began reading company annual reports.

SKILLS

Excel, MATLAB, SolidWorks and technical report writing.

Interests: industrial companies, cycling and design.
