FICTIONAL TEST CV - NOT A REAL APPLICANT

# Noah Williams

noah.williams@example.com | United Kingdom
General Finance | Summer Internship

## EDUCATION

**Cardiff University | BSc Computer Science | September 2025 - June 2028**

First-year average: 75%. Modules include Databases, Programming and Statistics.

## PROJECTS

**Transaction Data Quality Dashboard | Personal Project | April - August 2026**

Generated a synthetic dataset of 5,000 transactions and wrote Python checks for duplicate IDs, missing fields and invalid dates.

Stored exceptions in SQLite and built a dashboard showing the rule, transaction ID and reason for each flag.

Wrote 18 automated tests and documented that the dashboard checked data quality, not fraud or creditworthiness.

## EXPERIENCE

**Campus IT Helpdesk | Student Support Assistant | October 2025 - present**

Record support requests and explain basic troubleshooting steps to students.

Reviewed 45 resolved tickets, grouped recurring issues and drafted a supervisor-reviewed guide for common login problems.

## ACTIVITIES

**Coding Society | Project Coordinator | January 2026 - present**

Organised weekly task reviews for 5 students building a course-planning prototype.

Documented incomplete features before the demonstration instead of presenting them as finished.

## SKILLS

Python, SQL, Git, Excel and basic dashboard development.

Interests: data quality, financial technology and climbing.
